Projects

Landry cart service

SEPTEMBER 2023

- **Technologies used :** Streamline laundry experiences using our user-friendly cart service built on React, Node, Express and MongoDB, facilitating seamless laundry management from drop-off to delivery
- **Github Links :** https://github.com/Madanparta/Laundry_Cart
- Personalize your laundry preferences by leveraging our React-based platform, enabling users to select specific wash settings and additional services via an intuitive interface powered by Mongoose for efficient data handling.
- Stay updated on your laundry status with our simple tracking feature, developed using React and Node, providing real-time updates on the progress of your laundry orders.
- 3. Successfully deployed the application and resolved bugs and issues throughout the development process.
